

NATIONAL ASTROPARTICLE PHYSICS SYMPOSIUM

February 3, 2006

Department of Physics and Astronomy

De Boelelaan 1081

Vrije Universiteit

lecture room KC 137

- 10.00 h Coffee and tea
- 10.25 Welcome
- 10.30 **Subir Sarkar** (Oxford)
High energy cosmic rays
- 11.15 **Andreas Ringwald** (DESY Hamburg)
High energy neutrinos
- 12.00 Short presentations about CAN activities
- 12.30 Lunch
- 13.45 **Jelena Petrovic** (RU Nijmegen)
Inclined cosmic ray air showers detected by LOPES: possibility of neutrino detection
- 14.15 **Harmen Warringa** (VU Amsterdam)
QCD and quark stars
- 14.45 **Jose Bacelar** (KVI Groningen)
Detecting Ultra-High Energy Cosmic Rays and Neutrinos Hitting the Moon
- 15.15 Coffee and Tea
- 15.45 **Benoit Mours** (Annecy)
The search for Gravity Waves and the Virgo experiment
- 16.30 Drinks
